

Do judges track corrections and ignore paraphrases?

576 judgments · Qwen 4B + Gemma 4B · response EN/ES × grading EN/ES × original/paraphrased rubric

Bars: equal weight per task. Dots: task rates. Each row/panel pools 24 pairs: 4 + 4 + 16 across the three tasks.

One verdict per cell = majority of 3 repeats; repeats are not independent tasks. See the report for counts and grading-language detail.

Selected numeric snippets and conservative paraphrases; independent human review pending. No population-level claim.
